**Description:**

**From School Library Journal** Grade 9 Up-Henry David Thoreau's classic, first published in 1854 and reporting on his experiences at the eponymous site where he lived in physical and social independence during the mid-1840's, receives refreshing treatment here. William Hope reads leisurely but with feeling, offering listeners the illusion that the author is speaking directly to them. The abridgements are not substantive, so listeners will feel that they have become acquainted with the complexities of a text that is both orderly and sprinkled with irony and other literary devices. The chapters are tastefully set off by musical interludes that complement Thoreau's own rhythms.

Not only is this an excellent alternative for students assigned to read the text that is often offered in tiny print without benefit of margins, but it is also possible to suggest this to thoughtful teens who are seeking an intellectually engaging listening experience for their personal enjoyment. Hope's pacing invites readers with minimal skills to accompany their print foray with his narration. The careful editing here assures that they will not become lost between page and sound.

**From Library Journal** This edition of Thoreau's classic contains an introduction and annotations by Bill McKibben, who asserts that "at the close of the 20th century, it is most crucial to read Walden as a practical environmentalist's volume, and to search for his heirs among those trying to change our relation to the planet." Even if you don't buy his argument, you still get a dandy little hardcover for \$15.
